Manufacturing / Fabrication

VIPSUM 71®

Vipsum 71® is a registered trademark of Vipco Industries Inc. It's unique composition of fibreglass reinforced gypsum combined with a laminated decorative finish offers numerous features including these* :

- no taping, no mudding, no sanding , no mess, no problem.
- inhibits the passage of sound waves, offering added privacy to your home.
- eliminates the need for a vapor barrier. Canadian Government Specifications Board vapor permeance test conclude Vipsum 71® rated 3 times better than polyethylene.
- is easily maintained with soap and water for a lasting durable surface.
- vertical edges are completely wrapped around the underside of the panel for a professionally finished look.
- easily installs with a minimum of tools and mess.
- was designed to give the homeowner a bright new panel without the presence of formaldehyde or the danger of fire in standard woodgrain paneling.

Winter Moss

Travertine

Spectrum Sky

Satin Silk Cream

Catalina

*Colours will vary on individual computer monitors. Be sure to visit your nearest retailer to view an actual sample.

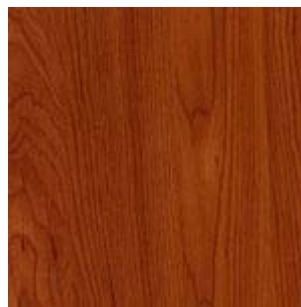

Vipco Industries Inc offers a wide range of panels to a variety of industries including:

Manufactured Housing, Recreational Vehicles, Mobile Structures, House Boat, Furniture, Cabinet and Door Assembly as well as many others. At Vipco we offer many mainstream substrates including Lauan Plywood, Medium Density Fibreboard (MDF) and Fireguard Gypsum along with several more innovative products including Vipco's proprietary Vipsun 71® and Vipcore® products as well as Woodstalk. Vipco's custom laminating capabilities allow us to offer a wide range of facing material options to meet our diversified customers needs - here are a few of the hundreds of available options*.

Door Oak

Autumn Cherry

Cinnamon Maple

New Hampshire Maple

Western Oak

Graphics Plum

*Colours will vary on individual computer monitors. Be sure to visit your nearest retailer to view an actual sample.

Lauan panels

Lauan panels can be applied directly onto wall studs. Characteristics of lauan plywood make a particularly attractive solution where moisture and humidity are present.

Pre finished Fireguard Gypsum

Vipco manufactures a complete line of pre finished 1/2 " and 5/8 " Fireguard gypsum board. These panels are used in commercial construction as well as in the modular building industry. Utilizing Vipco's line of pre finished gypsum products, interior commercial construction can be completed in half the time by eliminating the need for drywall mudding, taping and sanding. Edges are completely wrapped to the back side of the panel for a clean, professional looking finish.

Vipcore®

Vipco Industries proprietary 3mm Medium Density Fibreboard (MDF) offers an alternative to painting or wallpapering to change the look of a room quickly and easily. Lightweight yet very durable, Vipcore® is easy to install and comes in a variety of finishes to suit your decorating styles.

VIPTRIM®

Vipco Industries Inc. is proud of its in house milling division and ability to produce a virtually limitless range of custom profiles. All cutting knives are produced on site giving our customers the flexibility to select either an existing profile or create a custom profile to meet their precise requirements. Profiles are available in 8' / 10' or 14 ' lengths and can be manufactured using Finger Joint Pine, MDF.
